

LUCAS DE OLIVEIRA MARTINS

Technical Unreal Engine | Art Integration & Optimization

Curitiba, PR, Brazil (Open to Remote) | lucas_omartins@hotmail.com | +55 41 997150331

LinkedIn: linkedin.com/in/lucas-d-986b66b6 | ArtStation: lucasdeoliveiramartins.artstation.com

PROFESSIONAL SUMMARY

Technical Artist and UE Engineer with 4+ years of experience bridging the gap between art pipelines and engine performance. Specialist in Unreal Engine (C++ /Blueprints), proficient in shader authoring, GPU profiling with RenderDoc, and cross-platform optimization (Mobile/VR). Proven track record of delivering high-performance interactive experiences by solving complex rendering bottlenecks and automating art workflows.

PROFESSIONAL EXPERIENCE

Aeon VR | Curitiba, PR, Brazil

Technical Artist & UE Programmer | April 2022 - April 2026

- **Art-to-Engine Pipeline:** Owned the integration workflow for 3D environments and assets, ensuring visual fidelity while maintaining strict performance budgets for Meta Quest and Android platforms.
- **Rendering & Optimization:** Executed GPU/CPU profiling passes to identify and fix bottlenecks related to draw calls, overdraw, and shader complexity.
- **Technical Animation & Instancing:** Implemented and optimized rendering solutions using Instanced Static Meshes (ISM) and modular kits to handle high asset counts efficiently.
- **Shader Development:** Experience with custom materials and HLSL expressions in Unreal Engine, focusing on PBR standards, channel-packed masks, and optimized transparency.
- **Tooling & Automation:** Developed internal tools and Blueprints to automate repetitive integration tasks, reducing manual errors and increasing art team velocity.

TECHNICAL SKILLS

- **Unreal Engine Mastery:** UE4/UE5, Blueprints (Advanced), C++ (Junior), Material Editor (HLSL and node), Sequencer.
- **Performance & Rendering:** GPU/CPU Profiling (Unreal Insights/RenderDoc), Draw Call Reduction, PBR Workflow.
- **Pipeline & Automation:** Git/Version Control, Technical Documentation, Shader/Material optimization.
- **3D Art & DCC:** Hard-Surface Modeling, Texturing (Substance/Photoshop), Digital Sculpting, UV discipline for tiling materials, material creation

EDUCATION

Universidade Federal do Paraná (UFPR) | Curitiba, PR, Brazil

Bachelor's Degree in Graphic Expression | 2019 - 2024

- Focus on 3D design, spatial layout, and technical visual fundamentals for real-time rendering and programming.

LANGUAGES & PROJECTS

- **Languages:** English, Portuguese (Native).
- **Key Projects:**
 - **BRX / Fitmass:** High-performance multiplatform interactive experiences.
 - **GT Building:** Architectural visualization with focus on lighting and material polish.

PORTFOLIO & PROJECTS
